BRING A SECURE MANAGED WI-FI EXPERIENCE TO SERVICE MEMBER HOUSING

boldyn NETWORKS

THE U.S. ARMY'S WI-FI TO THE BARRACKS PROVIDER

What BaseNet provides

BaseNet brings Boldyn Networks' proven residential internet operating model, supporting more than 350 US higher education institutions, to deliver reliable, fully managed internet for service members in unaccompanied housing. Designed around the resident experience and the needs of each installation, BaseNet helps you:

Provide a reliable resident experience

- Performance designed to support coursework, video calls, streaming and everyday online activities with speeds up to 1 Gbps, up and down
- Support for up to 10 devices per resident account
- Guaranteed performance backed by SLAs
- Rapid deployment planned around existing buildings and installation requirements

Operate and support the service for the long term

- One provider for network operations, resident support and ongoing service management
- 24/7/365 US-based network and support
- Content filtering and network controls designed for the resident environment
- A commercially operated resident network designed to remain separate from government networks

Support readiness and quality of life

- Professional Military Education, training, and collaboration
- Family connection, appointments and personal responsibilities
- Streaming, gaming and off-duty recreation
- Reliable connectivity for residents' everyday digital needs
