TARIFF FORMAT

The following symbols are only used to indicate changes or revisions to the tariff as follows:

- (D)** To signify decreased rate
- (I)** To signify increased rate
- (C)** To signify all other changes

TARIFF FORMAT (Continued)

- A. Page Numbering: Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

- B. Page Revision Numbers: Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Pennsylvania Public Utility Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the Pennsylvania Public Utility Commission follows in the tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Page for the page currently in effect.

- C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).

TARIFF FORMAT (Continued)

- D. Check Pages: When a price list filing is made with the Pennsylvania Public Utility Commission, an updated check page accompanies the price list filing. The check page lists the pages contained in the price list, with a cross-reference to the current revision number. When new pages are added, the check page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check page to find out if a particular page is the most current on file with the Pennsylvania Public Utility Commission.

2.0 Undertaking of the Company

2.1 Scope

2.1.1 Undertaking

2.1.1.A The Company's services are furnished for telecommunications services originating and/or terminating in any area within the Commonwealth of Pennsylvania.

2.1.1.B The Company is a facilities-based and resale provider of telecommunications to Customers for the direct transmission and reception of voice, data, and other types of communications. Services are offered via the Company's facilities (whether owned, leased, or under contract) in combination with resold services provided by other certificated carriers. The Company is responsible under this tariff only for the services and facilities the Company provides hereunder.

2.1.1.C The Company's services are provided on a monthly basis unless otherwise provided, and are available twenty-four (24) hours per day, seven (7) days per week, subject to the availability of necessary service, equipment and facilities and the economic feasibility of providing such necessary service, equipment, and facilities.

2.1.2 Shortage of Facilities or Equipment and Other Limitations

2.1.2.A The Company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.

SECTION 2 – REGULATIONS (Continued)

- 2.1.2.B The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.
- 2.1.3 Terms and Conditions
- 2.1.3.A Service may be initiated only based on a written agreement between the Company and the Customer. To initiate a service request, the Customer must provide the following information: the Customer's name; an address to which the Company shall provide service; and a billing address (if different). The service application does not itself bind either the Customer to subscribe to the service or the Company to provide the service.
- 2.1.3.B Request for service under this Tariff will authorize the Company to conduct a credit search on the Customer. The Company reserves the right to refuse service on the basis of credit history unless the Customer pays a deposit, and to refuse further service due to late payment or nonpayment by the Customer. Potential customers who are denied service must be given the reason for the denial in writing within 10 days of service denial.
- 2.1.4 Limitations on Liability.
- 2.1.4.A In view of the fact that the Customer has exclusive control over the use of service and facilities furnished by the Company, and because certain errors incident to the services and to the use of such facilities of the Company are unavoidable, services and facilities are furnished by the Company subject to the terms, conditions and limitations herein specified:

SECTION 2 – REGULATIONS (Continued)

2.1.4.B Service Irregularities

2.1.4.B.1 The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failures or defects in facilities furnished by the Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the Customer, shall in no event exceed an amount equivalent to the proportionate charge to the Customer for the service or facilities affected during the period such mistake, omission, interruption, delay, error or defect in transmission, or failure or defect in facilities continues after notice and demand to the Company.

2.1.4.B.2 The Company shall not be liable for any act or omission of any connecting carrier, underlying carrier or local exchange Company except where Company contracts the other carrier; for acts or omissions of any other providers of connections, facilities, or service; or for culpable conduct of the Customer or failure of equipment, facilities or connection provided by the Customer.

SECTION 2 – REGULATIONS (Continued)

2.1.4.B.3 When service is interrupted due to causes beyond the Company's control, including but not limited to cable dig-up by third party, acts of God, civil disorders, actions of governmental authorities, actions of civil or military authority, labor problems, national emergency, insurrection, riots, war, fire, flood, and atmospheric conditions or other phenomena of nature, such as radiation, the Customer will be provided an allowance equal to one-thirtieth of the tariff monthly rate for the services rendered inoperative. The allowance shall apply for each full 24 hours during which the interruption continues after notice by Customer to the Company. The Company will also grant an allowance to Customer when an outage that lasts more than 24 hours is due to necessary Network reconfiguration or system modifications for technical upgrades. The allowance under such circumstances shall equal one-thirtieth of the tariff monthly rate for each of the first three full 24-hour periods during which the interruption continues after notice by the Customer. After the first three 24-hour periods, the allowance shall equal two-thirtieths of the tariff monthly rate, but in no instance may the allowance for the outage period exceed the total charges in a billing period. The aforementioned allowances will not be applicable where the service outage is the result of Customer's willful or negligent acts.

2.1.4.C Claims of Misuse of Service

SECTION 2 – REGULATIONS (Continued)

- 2.1.4.C.1 The Company shall be indemnified and saved harmless by the Customer against claims for libel, slander, fraudulent or misleading advertisements or infringement of copyright arising directly or indirectly from material transmitted over its facilities or the use thereof; against claims for infringement of patents arising from combining or using apparatus and systems of the Customer with facilities of the Company; and against all other claims arising out of any act or omission of the Customer in connection with the services and facilities provided by the Company.
- 2.1.4.C.2 The Company does not require indemnification from the Customer where the action for which it is seeking indemnification is based on a claim of negligence by the Company.
- 2.1.4.D Defacement of Premises
 - 2.1.4.D.1 The Company is not liable for any defacement of, or damage to, the Customer's Premises resulting from the furnishing of service or the attachment of equipment and facilities furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the Company. For the purpose of this paragraph, no agents or employees of the other participating carriers shall be deemed to be agents or employees of the Company except where contracted by the Company.
- 2.1.4.E Facilities and Equipment in Explosive Atmosphere, Hazardous or Inaccessible Locations

SECTION 2 – REGULATIONS (Continued)

2.1.4.E.1 The Company does not guarantee nor make any warranty with respect to installations provided by it for use in an explosive atmosphere. Company shall be indemnified, defended and held harmless by Customer from and against any and all claims, loss, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party, for any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, including environmental contamination, whether owned by the Customer or by any other party, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, presence, condition, location, use or removal of any equipment or facilities or the service and not due to the gross negligence or willful misconduct of the Company.

2.1.4.F Service at Outdoor Locations

2.1.4.F.1 The Company reserves the right to refuse to provide, maintain or restore service at outdoor locations unless the Customer agrees in writing to indemnify and save the Company harmless from and against any and all loss or damage that may result to equipment and facilities furnished by the Company at such locations. The Customer shall likewise indemnify and save the Company harmless from and against injury to or death of any person which may result from the location and use of such equipment and facilities.

- 2.1.4.G.2 Acceptance of the provisions of Section 2.1.4 by the Commission does not constitute its determination that any disclaimer of warranties or representations imposed by the Company should be upheld in a court of law.

- 2.1.6.D A Customer, Joint User, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated access services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this tariff will apply. Additionally, Customer may be liable for termination charges if Customer terminates any contract prior to expiration of its term.

2.2 Obligations of the Customer

2.2.1 Customer Premises Provisions

2.2.1.A The Customer shall be responsible for:

In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction. The advance payment will be applied to any indebtedness for the service and facilities for which the advance payment is made on the Customer's initial bill.
- 2.4.1.B Advanced payments for installation costs or special construction will be credited on the first bill in their entirety.
- 2.4.2 Deposits

2.5.1.A The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer.

2.5.1.A.1 Taxes

2.5.1.A.1(a) Appropriate federal, state, local and municipal taxes and surcharges will be charged on Services and are in addition to the rates for Service set forth in this tariff unless otherwise stated.

2.5.1.A.1(b) Customers shall pay all sales, use, gross receipts, excise, access, bypass, or other local, state and Federal taxes, charges, or surcharges, however designated, imposed on or based upon the provision, sale or use of the services (excluding taxes on the Company's net income). Such taxes shall be separately stated on the applicable invoice.

SECTION 2 – REGULATIONS (Continued)

2.5.1.A.1.(c) When a municipal corporation or other political subdivision of the state collects from the Company a license tax, privilege tax, street use tax, franchise fee, permit fee, or any tax, exaction, or fee measured by poles, wires, conduits, manholes, telephones, other units of plant, income or activities as a public service corporation, such taxes, exactions and fees shall, insofar as practicable, be billed *pro rata* to the Customers receiving service within the territorial limits of the municipal corporation or political subdivision.

2.5.2 Billing and Collection of Charges

2.5.2.A The Customer is responsible for payment of all charges incurred by the Customer for services and facilities furnished to the Customer by the Company. The Company is not responsible for any telephone charges that may be incurred by the Customer in gaining access to the Company's Network.

2.5.2.B Charges for service are applied on a recurring basis. Service is provided and billed on a monthly (30 day) basis. Months are presumed to have 30 days. Bills not paid within thirty-one (31) days after the date of posting are subject to a 1.25 percent late payment charge for any unpaid balance. The late payment date will be prominently displayed on the Customer’s bill. Company shall endeavor to credit payments within 24 hours of receipt to avoid assessing late payment charges incorrectly.

2.5.3.B Adjustments or Refunds to the Customer

2.5.3.B.1 In the event that the Company resolves the billing dispute in favor of a Customer who has withheld payment of the disputed amount pending resolution of the disputed bill, the Company will credit the Customer's account for the disputed amount in the billing period following the resolution of the dispute.

SECTION 2 – REGULATIONS (Continued)

2.5.4.A.3 In order to avoid suspension of service and late payment charges, the disputed amount must be paid within fourteen (14) calendar days after the date the Company notifies the Customer that the investigation and review are completed and that such payment must be made or service will be interrupted. However, the Company will not suspend service prior to the payment due date as shown on the bill.

2.5.5 Discontinuance of Service

SECTION 3 – DESCRIPTION OF SERVICES

3.0 Description of Services

3.1 RF Transport Service

3.1.1 Generally

3.1.1.A Radiofrequency (“RF”) Transport Services utilize optical technology, including multi-wavelength optical technology over dedicated transport facilities to provide Customers with links to radiate RF coverage.

3.1.1.B RF Transport Services connect Customers to their networks through a combination of distributed antennas and bi-directional RF-to-optical conversion equipment aggregated at a hub facility. The conversion equipment allows the Company to accept RF traffic from the Customer and then send bi-directional traffic transmissions across the Customer’s optical networks. At the remote end, the Customer's RF is received at Company-provided RF-to-optical conversion equipment that allows bi-directional conversion between optical signals and RF signals. RF signals can be received and transmitted at this RAN. Hence the Company provides optical transit services for Customer RF signals.

3.1.1.C The furnishing of RF Transport Services requires certain physical arrangements of equipment and facilities of the Company and other entities and is subject to the availability of such equipment and facilities and the economic feasibility of providing such necessary equipment and facilities and the RF Transport Services.

3.1.2 The specific limitations applicable to RF Transport Services are as follows:

3.1.2.A All optical services are provided on single mode optical fiber.

3.1.2.B Some optical services may be of a multi-wavelength nature.

3.1.2.C The optical loss between a hub site and a RAN must not exceed 10 dB in the event the RF Transport Services carry an analog signal.

3.1.2.D The delay loss between the hub site and the most remote RAN must not exceed 200 milliseconds of loss over a series of Segments not more than 16 km.

SECTION 4 – RATES AND CHARGES

4.0 Rates and Charges

4.1 Calculation of Rates

- 4.1.1 Charges for RF Transport Service are without regard to mileage. To the extent that the Company commences charging mileage rates to any of its services in the future, such rates will be based on airline mileage between rate centers of the calling and called stations. Mileage is calculated using the Vertical and Horizontal (V&H) coordinate system from the National Exchange Carriers Association Tariff F.C.C. No. 4 and in accordance with the Bell Atlantic intrastate tariff.
- 4.1.2 Charges for RF Transport Service are without regard to duration of the call. To the extent that the Company commences charging call duration rates for any of its services in the future, timing of calls will begin when the call is answered at the call station.
- 4.1.3 For Direct Dial intrastate, interexchange service, a call begins when the called party answers, i.e., when 2-way conversation is possible, and standard industry hardware/software answer detection is utilized. The call ends when either party hangs up. Calls will be billed in six (6) second increments, unless otherwise specified, and billing will be rounded up to the nearest penny for each call.
- 4.1.4 There is no variation in call rates based on time of day or day of week.

4.2 Recurring and nonrecurring charges

- 4.2.1 The monthly recurring rates and nonrecurring charges for RF Transport Services are as follows:

Description	Fee per Segment
Nonrecurring connection charge	\$100,000
Monthly recurring charge	\$15,000

- 4.2.2 For purposes of this Tariff, Segment shall mean a one-way optical carrier between one (1) Customer hub site or remote node and another Customer hub site or remote node. The optical carrier is a single optical wavelength. The optical fiber can carry more than one wavelength.

SECTION 4 – RATES AND CHARGES (Continued)

4.2.3.A The minimum service term for RF Transport Service is five (5) years.

4.3 Individual Case Basis (ICB) Pricing Arrangements

4.3.1 In lieu of the rates otherwise set forth in this Tariff, rates and charges, including installation, special construction, and recurring charges, may be established at negotiated rates on an Individual Case Basis (ICB), taking into account such factors as the nature of the facilities and services, the costs of construction and operation, the volume of traffic commitment, and the length of service commitment by the Customer, as long as the rates and charges are not less than Carrier's costs of providing the service. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual contracts or Customer Term Agreements. Specialized Pricing Arrangement rates or charges will be made available to similarly-situated Customers on comparable terms and conditions. Upon reasonable request, Carrier will make the terms of these contracts available to the Commission and its staff for review on a confidential and proprietary basis.
